**EUVEKUS INVITES YOU TO ATTEND TO**

**EUROSON PoC-US SCHOOL 09-10 September 2022, Vienna, Austria**

**The Point of Care Ultrasonography in Primary Health Care  
and Ambulatory Care - Updates and Perspective**

## ABOUT THE CONFERENCE

The Hybrid Conference is organized by EUVEKUS – The European Ultrasound Working Group in Ambulatory Healthcare, EFSUMB endorsed and supported by WONCA Europe.

The theme of the Conference, The Point of Care Ultrasonography in Primary Medicine and Ambulatory Healthcare - Updates and Perspectives, reflects the collaboration to advance common approaches aimed to improve early diagnostic through ultrasonography techniques.

EUROSON PoC-US SCHOOL 2022 will host over 100 delegates and 12 world-renowned faculty from Europe.

The meeting will provide participants with a unique opportunity for sharing knowledge, and skills through workshops.

Actually when we have advanced and relatively cheap ultrasound devices, and high-performance technology with artificial intelligence or some smart software using updated diagnostic algorithms, it's time to complete the classic clinical examination (by history, inspection, palpation, percussion, and auscultation) with the new clinical-ultrasound examination that currently allows us to visualize through ultrasound most organs and tissues of the human body (US-inspection), along with electronic ultrasound palpation through ultrasonographic elastography method (US-palpation), but also with the electronic auscultation through the Doppler Triplex technique (US-auscultation) to increase the diagnostic accuracy in primary and outpatient healthcare.

In addition, this activity will provide a platform for networking with many of Europe's leading experts, focusing on reviewing and assessing best practices in ultrasonography. The meeting program will include presentations, hands-on training, and several informal social gatherings

## VENUE:

University of Medicine  
Spitalgasse Nr. 23  
1090 Vienna  
01 401600

**Dr. Mihai Iacob**  
**EUVEKUS**  
**President**  
**&**  
**Chairman**  
**of the Conference**

**CME CREDITED  
COURSE**

**EUVEKUS** Europäische Vereinigung für die Entwicklung von  
Klinischen Ultraschalluntersuchungen im  
Ambulanten Gesundheitswesen  
**EADUS** European Association for the Development of  
Clinical Ultrasonography in Ambulatory Health  
Care (Outpatient Health Care)

## EUROSON PoC-US SCHOOL 09-10 September, 2022, Vienna, Austria

### The Point of Care Ultrasonography in Family Medicine and Ambulatory Healthcare

#### The topic of Euroson POCUS School Vienna 2022:

- T.1. The new concept of clinical-ultrasound examination in current medical practice. The contribution and limits of clinical ultrasonography in diagnosis.
- T.2. Introduction to general ultrasonography based on sections and standardized plans for the daily practice of clinical ultrasound.
- T.3. The PoC- US applications- The basic ultrasound diagnosis in abdominal and pelvic pathology – an efficient tool diagnosis for the family physicians' practice.
- T.4. Syndrome-focused ultrasonography Examination Technique and Sono-anatomy
- T.5. Ultrasonography of the upper abdominal floor.
- T.6. Ultrasonography of the digestive tract and retroperitoneal space.
- T.7. Pelvic and peritoneal serous ultrasound
- T.8. Cervical ultrasonography. Introduction to the Thyroid Clinical Ultrasound.
- T.9. FOCUS (Focused Cardiac Ultrasound) or Rapid Cardiac Assessment (RCA). Basic Cardiac Ultrasound for non-cardiologists.
- T.10. FAST Exam – Focused Abdominal Sonography in Trauma. Ultrasound in an emergency.
- T.11. Breast ultrasound. The role of breast ultrasonography in the investigation of the fibro-glandular breast in young women. Introduction to the ductal and conventional clinical ultrasound.
- T.12. Thoracic ultrasonography.
- T.13. Ultrasound-based Elastography. Strain Elastography as a useful tool in daily practice.
- T.14. The use of Artificial Intelligence (AI) as a means of support in the practice of clinical ultrasonography by general practitioners.

Dr. Mihai Iacob MD  
Senior Medical Expert,  
EUVEKUS President
